Subject: Re: Generic Deferral Outreach Schedule

Jeff. I believe NDEP has issues our latest redline of the Tribal MOU that still need to be resolved. I think you and I discussed verbally 2 or 3 weeks ago but tabled resolution pending the 21Nov meeting in Reno. My understanding is that there was insufficient time to get to the MOU document at that meeting. EPA and NDEP really need to come to agreement on the MOU before we are able to share anything with the tribes as part of moving the issue forward. Thoughts?

Harry

Angeles and Harry, I'm not sure what your management took away from the meetings with ARC last week, but my understanding is we have conceptual agreement on the language in the deferral agreement, pending one last review by Sylvia and Alexis. Considering that we could have a deferral agreement ready to sign early this week and looking at Angeles' timeline below, I wanted to get your feeling for reaching out to the tribes, City/County and specific public groups **in December still**.

I'm not sure the tribes would entertain an unscheduled council meeting to discuss the agreement next week, but we may want to consider requesting it. We also talked about developing a final MOU for their review during the December/early January timeframe. From the sounds of it, and since the Anaconda site hit the top 21 list last week, Pruitt may want to be involved in the signing of the agreement at some level. That could complicate our roll-out strategy, but, so be it. There's also the development of press releases to consider.

I just want to stay engaged with you guys as we get asked to plan and schedule...thanks.

Subject: RE: Generic Deferral Outreach Schedule

Hi Jeff,

The actual generic timeline that I read at our meeting in Reno is this one:

Accelerated Timeline

(Day = working day)

Day 0. START – when EPA & NDEP reach agreement on deferral documents (DA, iAOC).

Day 1. - Contact tribal environmental coordinators, city/county, congressionals to arrange meetings/calls to be held ASAP.

- Schedule briefing for Enrique.
- Initiate drafting press release, key messages/talking points.
- Prepare Enrique briefing.

Day 5-10 (or sooner). - Meet/calls with tribes, city/county, congressionals.

DAYS 10-20. - Period of Consideration (time for tribes to consider MOU).

- Circulate draft press release for comment, key messages/talking points for updates.

DAY 20. - Finalize press release, key messages/talking points.

DAY 21. - Sign Deferral Agreement.

- Issue press release.

DAY 22. - Call/email stakeholders.

- Contact NDEP about public meeting/availability session, initiate planning for such.

Dante and the team are working on a draft roll-out strategy which I haven't review. Once we discuss it internally, I would share it with you. It may change based on the conversations that are happening in the next few days.

Subject: Generic Deferral Outreach Schedule

Hi Angeles, in our meeting on 11/21 you referred to a generic schedule you had developed that defined timeframes for outreach to the tribes and community, maybe others. Could you share that with me? The way things are currently going, it doesn't look like we'll be able to get in front of the tribes and public until early January. Greg wanted me to get on the same page with you and Harry for planning. Harry mentioned a plan that Dante and Sarah were working on for outreach/next steps. Not sure if they're planning on sending that out soon. Thanks for the help.
